

INDRA BINGI

Python Developer | ML Engineer | Full Stack Developer

[contact](#) | bingiindra48@gmail.com | [LinkedIn](#) | [GitHub](#) | [portfolio](#)

Andhra Pradesh, India

PROFESSIONAL SUMMARY

B.Tech CSE (AI) fresher with hands-on experience in Python development, Machine Learning, and Full Stack web development. Completed two AICTE-recognized internships with demonstrated impact — automated workflows reducing manual effort by 30–40% and optimized Python programs improving performance by 20%. Built and deployed an ML-based software fault prediction system using Scikit-learn, Flask, SMOTE, and cross-validation. Proficient in REST APIs, OOP, SQL databases, and Git. Seeking entry-level Python Developer or ML Engineer roles.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL

Web Development: HTML, CSS, Bootstrap, Django, Flask, REST APIs

Machine Learning & Data Science: Scikit-learn, Pandas, NumPy, Matplotlib, SMOTE, OOP, Jupyter Notebook

Databases: MySQL, SQLite

Tools & DevOps: Git, GitHub, VS Code, Agile Methodology

Soft Skills: Problem Solving, Communication, Team Collaboration

WORK EXPERIENCE

Full Stack Developer Intern | [SkillDzire Technologies](#) | May 2025 – Jul 2025

- Designed and developed responsive web applications using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-device compatibility
- Implemented backend logic and RESTful API services using Python and Flask for dynamic data processing
- Integrated MySQL database for efficient data storage, retrieval, and management using OOP principles
- Built end-to-end full stack features ensuring seamless frontend-backend communication

Python Developer Intern (AICTE) | [EduSkills Foundation — National Internship Portal](#) | Apr 2025 – Jun 2025

- Developed Python automation scripts using OOP and modular design, reducing manual effort by 30–40%
- Performed data cleaning and transformation using Pandas and NumPy on large datasets
- Optimized Python programs through debugging and refactoring, improving execution performance by 20%
- Implemented data visualization workflows using Matplotlib, providing actionable insights for stakeholders

PROJECTS

Software Fault Prediction using Cross-Project Analysis *Tech Stack: Python, Scikit-learn, Flask, SQLite, Pandas, SMOTE, Matplotlib*

- Built an ML system to predict software defects across NASA PROMISE datasets (JM1, CM1, KC1, KC2, PC1) using cross-project analysis
- Handled class imbalance using SMOTE oversampling; trained and compared 9 classifiers including Random Forest, SVM, and MLP neural networks
- Optimized models using Grid Search CV and k-fold Cross-Validation, achieving improved F1-score and recall metrics
- Deployed as a Flask REST API web app with SQLite backend, enabling real-time dataset upload and defect prediction

Python File Management Automation Tool *Tech Stack: Python, os, shutil, Logging, OOP*

- Developed a file management automation tool for sorting, renaming, and organizing files using OOP design patterns

- Reduced manual effort by 40–50% with robust error handling, logging, and exception management
- Optimized script for large directories, improving execution speed by 25% through efficient I/O operations

Personal Portfolio Website *Tech Stack: HTML, CSS, JavaScript, Bootstrap*

- Built a fully responsive portfolio website with modern UI/UX principles and mobile-first design
- Integrated interactive components, dynamic elements using JavaScript, and optimized loading speed across all devices

EDUCATION

B.Tech — Computer Science Engineering (AI Specialization)

SVR Engineering College, Andhra Pradesh | 2022 – 2026 | CGPA: 75%

Intermediate (MPC) — Andhra Pradesh Board

2022 | 75%

SSC (10th) — Andhra Pradesh Board

2020 | 97%

CERTIFICATIONS

- **Python Full Stack Long-Term Internship** — RESHAPP Software Solutions Pvt. Ltd — AICTE Approved | Dec 2025 – Mar 2026 | 16 Weeks
- **Python Full Stack Developer Virtual Internship** — EduSkills Foundation — AICTE | National Internship Portal | Apr 2025 – Jun 2025 | 10 Weeks | Grade: Pass
- **R Programming for Data Science** — Data Science Track | 2025
